INMARSAT (IsatPhone Pro) call costs

Thank you for choosing EPIRBhire, if you have any queries please don't hesitate to call. We are available 24/7 (for emergencies)

On our webpage we have an informative explanation of the IsatPhone and its functionality, please have a good read before leaving on your trip.

Please have a good look at the table below listing the call costs per unit. We will charge you \$1 per unit used.

Your Inmarsat phone will have at least 100 units credit when you receive it. Please check the available balance when you receive the phone, you will need to be outside, then just follow the menu buttons or hit *106# send. If you need more than 100 units please call and we can top up the credit. We can top up at any time, just call us. We will charge you for the units you have used when the phone is returned. To encourage you to test/try the phone we will not charge you if you use less than 10 units.

Inmarsat is unable to give you an itemised list of calls made. If you prefer an itemised list of calls we can offer the Iridium satellite phone system.

Calling the IsatPhone is expensive, via Telstra (and other carriers) the charge to the caller will be up to \$15 per minute. We suggest you send an SMS or email to the phone.

The **email address** for the phone will be 87077646xxxx@message.inmarsat.com
The **SMS** will be +87077646xxxx

Connection Type	Units Used
Voice to PSTN (public switched telephone network)	1.00 Unit per Minute
